## QUALITY HANDLING EQUIPMENT

Midi EasyFill with integrated Weigh Platforms

Midi EasyFill Box Filler

Doorstop Belt

## Our range of box handling equipment is comprehensive & offers the gentlest handling of crop

'Easy-Fill' twin box fillers have made Tong the number one in box handling machinery. Our unique Doorstop belt offers the gentlest handling of crop, with rubber fingers that gently hold crop without the need for conventional curtain hoods. One reversible crop conveyor with lowering ends makes box filling 'easy', fast and gentle, with minimum drop. All Tong box fillers are now manufactured with linear actuators controlling lowerators to reduce maintenance & improve efficiency, as well as new easy-to-use pictorial controls.

EasyFill box fillers are available in a range of models including Mini, Midi, Maxi and Mega based on the size of boxes and tonnage required. Fully automatic operation via a micro processor and crop sensors, the EasyFill evenly fills the boxes by traversing the conveyor over the box.

**Gentle**

**Robust**

**Efficient**

**Reliable**

### Mini EasyFill:

- Single conveyor with lowering end sections 1280mm long, centre section 1800mm
- Micro-processor controlled via probes
- Automatic Box Detection
- Auto Socket and Plug
- For boxes up to 1050mm high

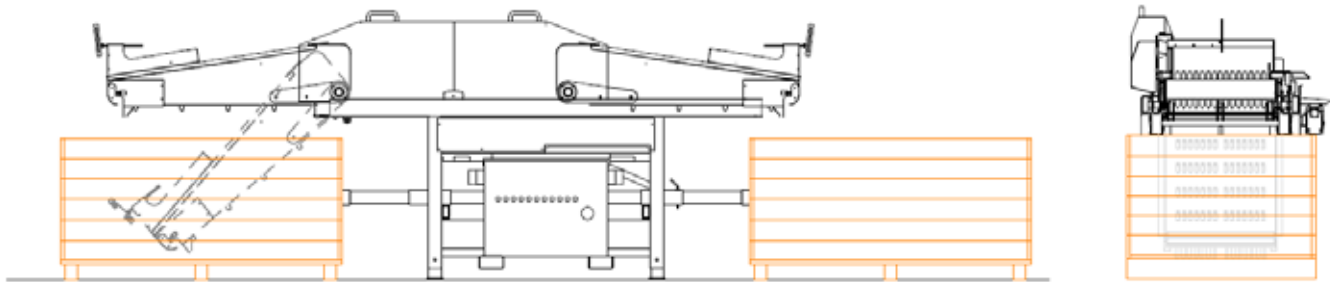

### Midi EasyFill:

- Single conveyor with lowering end sections 1580mm long, centre section 1800mm
- Micro-processor controlled via probes
- Automatic Box Detection
- Auto Socket and Plug
- For boxes up to 1200mm high

### Maxi EasyFill:

- Single conveyor with lowering end sections 1580mm long, centre section 2400mm
- Micro-processor controlled via probes
- Automatic Box Detection
- Auto Socket and Plug
- To work directly off the end of 1800 Caretaker, for boxes up to 1200mm high

**Optional Extras:** Doorstop Belt, Frequency Inverters (3 phase supply only), Feed Elevator

## EASYFILL BOX FILLER SPECIFICATION DATA

EasyFill Model	Overall Length (mm)	Centre Section (mm)	End Sections (mm)	Maximum Box Height (mm)	Minimum/Maximum Box Length (mm)
Mini	5700	1800	1275	1050	1200/1800
Midi	6300	1800	1575	1200	1500/1800
Maxi	6900	2400	1575	1200	1600/1800
Mega	8650	3000	1875	1200	1800/2400
