

# DRY BRUSHERS

## QUALITY HANDLING EQUIPMENT

Dry Brusher

Heavy Duty Dry Brusher with Top Brushes

**Tong dry brushers offer the ideal solution for cleaning crop in a gentle, economic and efficient way.**

The Tong dry brusher can be built to your exact requirements. Standard models range from 600mm to 1200mm wide & up to 3 metres in length. A bypass system can also be incorporated so that the brusher can be bypassed when not required. Tong's brusher is an ideal solution for the removal of loose, dry soil from root crop such as potatoes, and offers a perfect way to remove loose skin to give a more polished appearance to onions.

- **Standard models including 11, 14 or 21 brushes**
- **Standard lengths ranging from 1.5 to 3 metres**

#### **Optional Extras include:**

- Variable Speed
- Castor Wheels
- Powered Top Brushes
- Powered Roller Table Inspection
