

TONG

STONE & CLOD SEPARATOR

QUALITY HANDLING EQUIPMENT

1200mm wide Stone & Clod Separator

Tong stone & clod separators efficiently separate valuable crop from stones and clod in the grading system.

The Tong stone and clod separator can be built to your exact requirements. Standard models include a 900mm wide model with a capacity of up to 5 tonnes per hour and a 1200mm wide model for up to 8 tonnes per hour. The machine comprises of a presentation conveyor which feeds crop onto a rotating roller from which the crop bounces onto a crop elevator and the stones and clod fall onto a side delivery conveyor. The machine can be supplied with a horizontal conveyor for crop and optional feed and waste elevators can be used to integrate with your grading system.
