

# UNIFILL BIG BAG & BOX FILLER

## QUALITY HANDLING EQUIPMENT

**The Tong UniFill big bag and box filler is designed to fill big bags or boxes efficiently and gently**

The Tong UniFill offers conveniently universal filling of boxes and big bags for those who require the facility to do both on a regular basis. The filler operates with one reversible conveyor, which feeds the crop to vertical elevators that are lowered into the box or bag. Once one elevator has filled the box or bag the crop conveyor is automatically reversed and the elevator on the other side begins.
