

BIG BAG BINS

QUALITY HANDLING EQUIPMENT

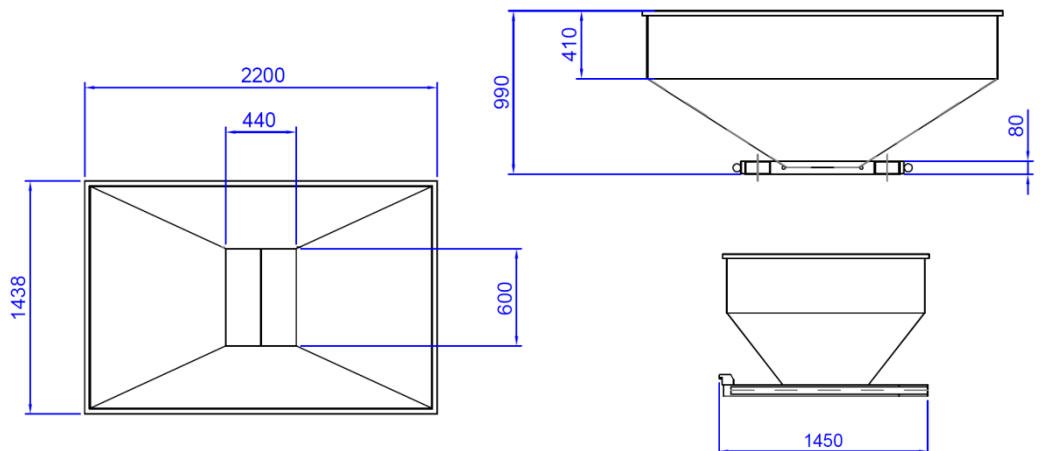

Big Bag Filling Bin

Tong Big Bag Bins offer an economical and versatile solution for filling bags and sacks

With a holding capacity of up to 1200kg and a simple manual handle for the 'Bomb Door' opening, once the bag is hooked onto the arms and the door is opened, the bin is lifted by its fork-lift tubes and the bag fills. Tong's Big Bag Bins are suitable for use with box fillers as an alternative to conventional boxes when bag filling is required.

- Filled by box filler
- Holding capacity 1200kg/1.9 cubic metres
- 'Bomb Door' opening with manual handle
- Fork-lift tubes & bag holding arms
- Fork-lift tubes – 150mm x 70mm deep, 645mm apart
